Dear Sherry:

Due to our recent discovery that Joseph Corlett has made his gun obsession obvious to other colleagues and has managed to make himself known in negative ways to so many other females on campus, I am feeling increasingly uncomfortable and unsafe. As he has written letters to our school newspaper defending the right to carry concealed weapons on campus, I cannot feel safe knowing that he might have a weapon with him at any time. He might have had a gun in his backpack when he sat 20 feet away from me at the writing center last week.

As the administration is moving slowly and showing little concern (it's been a week since Glenn said that Karen Lloyd would contact me), I request that I be allowed to work from home until this matter is resolved. The Oakland County Sheriff and the Rochester Hills Police Dept. have my official claim and have made it clear that they will not tolerate any intimidation tactics from Mr Corlett.

Please grant this request and advocate for me as necessary. Either Mr Corlett leaves campus or I do. I will not be afraid to go to the ladies restroom, as I was today, because someone informed me that he was in the library.

This is an unacceptable and dangerous work environment.

I appreciate all that you have done on my behalf.

Sincerely,

Pamela.
