

## 11.1 Protection of Personal Privacy

*This page was last updated more than five years ago. See the [update history](#) page for more information.*

MIT is committed to protecting the personal privacy of members of the MIT community. The mutual trust and freedom of thought and expression essential to a university rest on a confidence that privacy will be respected. While the organizations collecting and having custody of personal information are immediately responsible for its protection, the ultimate protection comes from a community-wide awareness of the importance of personal privacy in our society and the many ways it can be eroded.
