A. Community Expectations

1. Community Accountability

The following policies reflect the values of Housing, Dining, & Auxiliary Enterprises (HDAE) and were established to uphold our mission of creating a community that is safe and conducive to living and learning. As a member of the University of California (UCSB) community, it is your responsibility to familiarize yourself with these policies and abide by them. Violation of any of the following policies jeopardizes your housing contract, violates the UCSB Student Code of Conduct 102.07, and may result in University Sanctions.

These policies apply to all UCSB residents and their guests when they are on HDAE properties (e.g. residence halls, university apartments, parking lots, Dining Commons) and are also enforceable while participating in Housing sponsored activities on or off campus.

Please consult Residential and Community Living (R&CL), should you have any questions regarding the policies and your responsibilities as a resident outlined in the sections below.

Your responsibilities as a resident include:

- Compliance with the policies outlined in this document.
- Demonstrating respect for all members of the community.
- Examining your own behavior when approached by another and to work toward resolving conflicts amiably.
- Maintaining a safe environment for yourself and your community members.

2. Bias Response

As stated by the University of California's Principles of Community grounded in the mission of instruction, research and public service, UC values diversity, affirms the inherent dignity of every person and upholds communities of justice. UC strives for a campus and a world free of discrimination, intolerance and hate, and is equally committed to freedom of expression, critical inquiry, civil dialogue and mutual respect.

Residential & Community Living values diversity and inclusivity and will work to promptly address acts of bias and harassment directed at any individual or group in our residential communities; such acts are unacceptable in our residential community. These acts are considered violations of the Residential & Community Living Terms and Conditions, UCSB Campus Regulations, the UC Policies Applying to Campus Activities, Organizations and Students (PACAOS Section 104.90), and may be a violation of state or federal law.

Hate Crime

A hate crime is a traditional criminal offense with an added element of bias towards a federally protected class of people. For the purposes of collecting statistics, Congress has defined a hate crime as a "criminal offense against a person or property motivated in whole or in part by an offender's bias against a race, religion, disability, ethnic origin or sexual orientation." Hate itself is not a crime, and the FBI is mindful of protecting freedom of speech and other civil liberties. Hate crimes will be handled by campus police.

Examples of Hate Crimes:

- Physically harming a community member because of their sexual orientation.
- Student damages another student's residence hall window sill by carving a racist remark on it.

Bias Incident

A bias incident is an offense against a person or property motivated in whole or in part by the offender's bias against a race, religion, disability, ethnic origin, sexual orientation or gender identity BUT may not rise to the level of a crime. Bias incidents include hostile environments and harassing behavior that is severe or pervasive to the point that it threatens an individual or limits the ability of the individual to work, study, or participate in college life. The resident may or may not have specific or general intent to harm, but contributes to creating a hostile or unwelcoming living environment.

Examples of Bias Incidents:

- Guest uses a racial slur during a documentation.
- Community member yells a homophobic slur at another community member.
- Two residents are targeting a third by joking and using derogatory terms repeatedly such as the n-word or retard.

For more resources and examples of how to identify bias, please visit:

- <http://www.tolerance.org/supplement/identifying-and-responding-bias-incidents>

3. **Complicity**

Part of being a responsible citizen within university housing includes being aware of your surroundings. Housing, Dining, & Auxiliary Enterprises (HDAE) expects students who anticipate or observe a violation of policy to remove themselves from the situation immediately: failure to do so may result in being charged for the policy violations being observed.

B. Community Standards of Conduct**1. Alcohol and Other Drugs**

In the event that a resident is found responsible for violating any of the Alcohol and Other Drug policies, the resident will likely be sanctioned to attend an educational course provided by the UCSB Alcohol & Drug Program.

1.1 Alcohol Containers

It is a violation of policy for residents under the age of 21 to be in the presence of alcohol containers (sealed or open). This includes containers used as decorative items.

1.2 Alcohol Emergency Response

Any resident, regardless of age, evaluated by Emergency Services due to alcohol consumption will be minimally referred to Student Conduct and the Alcohol & Drug Program.

1.3 Alcohol Over 21

Residents and guests who are 21 or older may consume and store alcohol within the privacy of their own room or suite and not in public view or in the presence of persons under the age of 21. Providing alcohol to persons under 21 is prohibited. Residents who fail to remove themselves from incidents where persons under the age of 21 are consuming alcohol are also in violation of this policy. Carrying open containers of alcoholic beverages or consuming them in public (e.g., lounges, hallways, stairwells, common bathrooms, or outdoor areas) is also prohibited.

1.4 Alcohol Under 21

It is a violation of policy for residents under the age of 21 to possess, distribute, and/or consume alcohol; be in the presence of alcohol; or be in the presence of others consuming alcohol. Residents who fail to remove themselves from incidents where alcohol is present are also in violation of this policy.

1.5 Alcohol Large Quantity

Residents, regardless of age, are prohibited from using or storing alcohol that is excessive for responsible personal use. Possession or use of any keg (empty or full), beer bong, or other mass drinking device is prohibited. Residents found responsible for violating this policy may be subject to immediate contract cancellation.

1.6 Behavior under the Influence of Alcohol and/or Drugs

Being under the influence of alcohol or drugs is prohibited. Disruptive behavior or the inability to exercise one's safety, or the safety of others, due to alcohol or other drug consumption is a violation of Residence Hall Community Standards.

1.7 Controlled Substances/Illegal Drugs

It is prohibited to distribute, solicit, procure, sell, or manufacture controlled substances. The possession, use, distribution, cultivation, manufacture, or sale of drugs, including medicinal marijuana, or drug paraphernalia (e.g., bongs, pipes, and vaporizers) is prohibited. Being in the presence of illegal drugs is prohibited within, or in the vicinity of, university housing. Additionally, residents suspected of using drugs, due to odor, disruptive behavior or by information brought to staff will be documented.

1.8 Controlled Substances/Illegal Drugs Emergency Response

Any resident evaluated by Emergency Services due to drug use or misuse of controlled substances will be minimally referred to Student Conduct and the Alcohol & Drug Program.

Residents are responsible for the actions of their guests at all times. When guest(s) violate residence hall, Dining, or ResNet policies, the host will be subject to disciplinary action and the guest(s) may be asked to leave. Residents are responsible for properly and accurately identifying guest(s) to staff upon request.

6. Guest Visitation

Hosting an overnight guest(s) requires prior approval by roommate(s)/ suitemate(s). A request to not have guests supersedes the ability to have guest(s). All guests between the hours of 11:00pm and 8:00am will be considered overnight guests and registered with the front desk of each residence hall. Overnight guests must be at least 18 years of age and not stay longer than three consecutive nights. No resident may have overnight guests more than seven nights in any quarter. Non-residents may not be guests in university housing for more than seven nights per quarter whether with the same or different hosts.

During Halloween, other special events, or in extraordinary circumstances (e.g. public health reasons), restrictions on guests, registration procedures, and other security precautions may be implemented for the community's safety. University housing reserves the right to restrict guest visitation and social gatherings as necessary.

Not answering doors, being verbally abusive, failing to provide information, providing false information, being uncooperative, or otherwise interfering with staff duties is prohibited. Residents must immediately follow staff directions given in response to a public health concern. This may include having to quarantine/isolate, requiring face coverings and/or other requirements deemed necessary to minimize individual and community health impact. Refusal to isolate/quarantine or follow staff directions may be considered a serious violation constituting a nuisance injurious to the health of the community (Civil Code 3479) which may terminate the resident's contract in accordance with California Code of Civil Procedure 1161(4).
